

x2 Specifications

Tuned for cross-terrain.

x2

The Segway® x2's deeply treaded, all-terrain tires can master intimidating patches of dirt, gravel, grass, or sand. A special adaptation of Segway Inc.'s dynamic stabilization technology and a wider track maximize stability, while the x2's higher ground clearance ensures that steep hills, uneven trails, and errant rocks won't impede your ride. It can carry you up to 12 miles/19 km on a single charge,* and when you want to transport your x2 to an off-pavement destination, oversized handles make it easy to hoist it in or out of a vehicle. Wherever your pursuit of the adrenaline rush takes you, pure exhilaration is sure to follow as the x2 propels you over the landscape, instantly responding to your every move.

*12 miles/19 km is the maximum range for the x2 with lithium-ion batteries. Actual range depends on terrain, payload, and riding style.

The x2 is not intended for use on sidewalks or pedestrian walkways. Refer to and follow all instructions in the User Materials.

Weight		Tire Width		Footprint		Max Speed		Range	
120 lbs.	54.4 kg	8"	20 cm	21" x 33"	67 cm x 84 cm	12.5 mph	20 kph	Up to 12 mi	Up to 19 km
